

### Excel – Bacterial Cleaner

A high powered bacterial cleaner that neutralises and removes acid-sensitive contaminations common in toilet, basin, bath, and shower areas.

- Breaks down oil, soap residues, fungus, water stains, and scale with ease.
- Eliminates objectionable odours at their source.
- Light gel texture clings to vertical surfaces to maximise cleaning effect .
- Made from 3 natural, vegetable based acids derived from sugar cane.
- Contains no phosphorous compounds or harsh mineral acids common in other products of its type, and in normal use is safe to use in septic systems.

FEATURES	BENEFITS
Powerful disinfectant	<ol style="list-style-type: none"> <li>1. Ensures complete bacterial control of all treated surfaces</li> <li>2. Increases the speed and completeness of the bacteria kill</li> <li>3. Peace of mind - complete protection, yet gentle and safe to use</li> </ol>
Septic-safe when used prudently	<ol style="list-style-type: none"> <li>1. Used as directed, Excel will not upset the delicate pH balance of the system, thus not harming healthy bacteria</li> <li>2. Organic acid ingredients are 100% biodegradable and will not place a strain on the system's bacteria in the breakdown phase</li> </ol>
Contains natural essential oils	<ol style="list-style-type: none"> <li>1. Reodourises all treated surfaces</li> </ol>
Mild acidic action	<ol style="list-style-type: none"> <li>1. Scum and scale are acid sensitive and break down immediately on contact with Excel</li> <li>2. Extended protection from algae, fungi, soap scum and greasy contaminations, which contribute to odours, bacterial growth and blockages</li> <li>3. Removes soap scum and scale formed on surfaces exposed to hard water conditions</li> </ol>

- 'No scrub' - easy cleaning
- Removes the toughest of stains
- No phosphorus or harsh acids
- Amazing results

#### Directions for use:

Apply and spread over area to be cleaned. Allow to sit for 1-2 minutes, then lightly agitate and rinse clean.

**NOTE:** Excel should not be used on Marble, Terrazzo, Granite or any reactive stone.

#### Contains NO:

caustic alkalies, fillers or extenders, petroleum by-products, SLS, toxic colours or fragrances, chlorine, ammoniates, EDTA, parabens, or formaldehyde.

#### INGREDIENTS

Coco Glucoside, Citric Acid, Lactic Acid, Acetic Acid, Methyl Methoxy Butanol, Coco Dimethyl Amine Oxide, Lauryl Trimethyl Ammonium Chloride, Xanthum Gum, Oil of Spearmint, Food grade colouring.
