'Easy Being' August 2008 RETAIL e-newsletter

Greetings! Are you looking for Green Solutions for your kitchen? Read on for some great green product solutions, plus some special August deals for our subscribers.

Please forward this newsletter and spread the Going Green Solutions!

Green kitchen solutions

Want to rid your kitchen of dangerous chemicals? Start by ditching the conventional harsh caustic dishwashing machine powder and replacing it with a plant based powder that is still highly effective but gentle enough to not cause serious injury if ingested by a child. **Citrus (Tri Nature)** is a great solution - just 1 teaspoon per load.

*Sick of using cling-wrap but don't know how else to keep your sandwiches fresh? **Make your cling-wrap redundant**—package your/your kids sandwiches and snacks in our great **re-usable lunch wraps and new sandwich pockets**; Velcro shut and simply wipe or wash clean after use. Start yourself off with a package deal...a rubbish free lunch every day!*

Love yoghurt and ice-cream but hate ending up with a mass of containers you have to throw out? **Solve the problem—make your own delicious yoghurt and ice-cream with the Easiyo system**; as easy as pie and the kids will love helping (and eating it!) too. Re-usable containers including mini-lunch tubs means no more throw-away plastic tubs...

August subscriber specials

- 1. Kids gifts package deal:** Stock up on gifts for your young friends—buy 2 packs of **Go Anna!** and receive one pack of **Jem's giftcards FREE** (value \$14.95)
- 2. Re-usable lunch pocket special deal:** Buy 2 x sandwich and 2 x snack pockets, get an extra snack pocket **FREE** (value \$8.50)
- 3. Easiyo yoghurt & ice-cream maker starters deal:** Buy an **Easiyo yoghurt maker** plus **extra tub set** (1 x large, 2 x lunch tubs), get a **D'Light ice-cream maker HALF-PRICE** (value \$7.30)

The most dangerous sea species in the Mediterranean...what could it be? **[Click on this link to find out...](#)**

Give throw-away culture the toss!

Ever had something too good to throw away but too obscure to give to the op-shop? If you answered yes and are into re-using and recycling, check out **Freecycle** and **Scoodi**—two versions of a great system that allows you to link up with others that have or want 'things' that you can then exchange at no cost. The ethos (from Scoodie website):

- Keep good stuff out of landfill
- Act locally and trade with your local community
- Give stuff and find stuff

Happy trading!
