## 'Easy Being' February 2009 RETAIL e-newsletter

**Greetings and Happy New Year!** Now that we have settled into the new year, lets find some green solutions for our kids returning to school—or us returning to work! Read on for some great green solutions, plus some special February deals for our subscribers.

### Green 'return-to-school' solutions

Sick of using cling-wrap but don't know how else to keep your sandwiches fresh? **Make your cling-wrap redundant**—package your/your kids sandwiches and snacks in our great **re-usable lunch wraps and new sandwich pockets**; Velcro shut and simply wipe or wash clean after use. Start yourself off with a package deal and enjoy a rubbish free lunch every day!

**Sugarcane fibre notebooks (A4,A5 and A6)** are made from the waste product (bagasse) produced when sugar is harvested. These note books come in a range of bright and beautiful covers.

**Obon recycled paper pencils** are made from old newspaper, using a patented roll-on method that ensures the lead in the pencil does not break easily. It's quality is proven to last 2-3 times longer than ordinary wooden pencils. Additionally, no forest was destroyed to make an Obon pencil. Obon pencils are bright and attractive, a great gift and an easy way to reduce your impact on the planet.

**Here are some ways you can make your community a more sustainable place to live...**

*"There is no such thing as one sustainable business, or one sustainable*

*household. We must be part of a sustainable system. Move from a competitive mentality to one of cooperation in order to build a whole local economy based on humane and sustainable living. \** 'Buy Local First' studies show that when you spend \$100 in a local store \$45 recirculates into the local community compared to \$11 if it's spent in a big name store, so by supporting local retailers - especially those who sell locally made products like farmers markets—you also support your local community and it's future!
