**NEW Products**

**EnviroPower Alkaline Battery Recharger**

It's finally possible to reuse normal disposable batteries! Recharge standard alkaline batteries up to 20 times before disposing of them.

**Keep-Cup**

The popular re-usable takeaway coffee cup is a must have for everyone who goes out for a daily coffee. Grab one today and ditch the usual plastic coated paper cups.

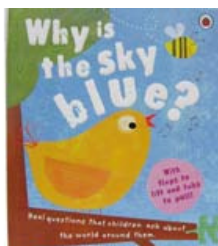

**Baby BeeHinds cloth nappies & covers**

All-in-ones as well as bamboo fitteds and PUL covers in a range of beautiful colours.

**Why is the Sky Blue?**

With flaps to lift and tabs to pull, this beautiful book helps your child learn to care for the world around us by understanding what makes it so special. With real questions from children, this book is a great way to encourage them to explore our fascinating world.

Greetings to all,  
At long last the first draft of our updated website has been launched! This means you will see a bunch of the new products we have added such as evacuated tube solar hot water, bio-paints, solar reflective coatings, alkaline battery rechargers, and several new brands of cloth nappy. Call in and visit if you are ever in the area—the larger shop is much easier to browse in, and we'd love to meet you if we haven't already. Thanks as always for your support! Wishing you a lovely month,  
Lucinda, Sean & Sue

**Astec Solar Reflective Coatings**

The Energy Star range of Solar Reflective Coatings can assist in reducing energy consumption by reflecting up to 80% of solar rays, effectively acting as external insulation for your roof and walls. Can cover tiles, metal, or wood.

**Apricus Solar Hot Water**

Solar hot water systems can save up to 80% of your water heating bill and are a great way to reduce your greenhouse emissions. Call us for a quote today!
