'Easy Being' September 2009 RETAIL e-newsletter

Greetings... Hope you are enjoying the glorious spring days as we are. At an event I went to recently, it was again impressed upon me that we all—collectively— have about 10 years to significantly reverse the effects of Global Warming. This is not something that we can afford to 'wait & think about'! We need to each take whatever steps we can every day—starting today—to live, work and play more sustainably, and support others to do the same. We would like to acknowledge the efforts of everyone who is already doing this—you are the leaders of an exciting period in history! Lets all continue to work together to create as much momentum as we can.
Cheers, Lucinda

'Switch your light bulbs for free' offers - are they legitimate?

In a word—yes! How it works is that a company that switches your light bulbs from incandescent to CFL (at no cost to you) is able to claim energy credits for doing so, which can then be sold (a sort of early carbon trading). So they get value and you get value—no cost energy efficient light bulbs.

Working Bee's for fire-affected families

Able to contribute?

Would you like to contribute to the on-going (and huge) task of helping families re-establish their gardens, homes and lives in burnt out areas? There are several initiatives including fence building teams, regular working bees and land care activities in which your energy would be greatly appreciated!

- **Spend a day helping out—contact us for further info.**

Special offer for September!

Receive a **free 500ml Cheeki stainless steel bottle** for every retail purchase of **\$150 or more, or upgrade to a free 750ml stainless steel bottle** if your retail order tops **\$200!** (Mention this offer and let us know what colour you want!)
